

THE SILENT EXTINCTION OF ANIMALS

1. LESSER KNOWN SPECIES

In the process of extinction crisis we often forget to protect the lesser-known endangered species. There are tons of species which have not gotten the attention and are slightly slipping away from our planet.

2. DISAPPEARANCES

These lesser-known species play an important role for the balance of our ecosystem. Due to the climate change and habitat destruction, they are often left threatening their very existence.

3. AWARENESS

To tackle this issue down, we must act together by providing awareness programs to the governments and individuals. We must adhere to find the challenges that are faced by these species.

4. WEB OF LIFE

Every species has a role to play in the interconnected web of life. By protecting the lesser-known endangered species, we safeguard and secure a healthier and a better future for all.

5. ACTIONS TO TAKE

The process of ongoing extinction crisis we often forget to protect the lesser-known endangered species. Armed with knowledge, let us make this society a better place for the mere survival of all the species.
